Established in 1921 Aurora Custom Mouldings has manufactured its products in Canada utilizing highly efficient drying techniques and system applications to ensure the consistent high quality synonymous with the name Attridge.

Our employees form a dedicated and highly experienced team committed to meeting the precise needs of the manufacturing, construction and retail sectors of industry from initial design input to finishing stages. Special attention and dedication to the Architectural Design and implementation of designer series profiles has caused Aurora Custom Mouldings to be a world leader in five star hotel and condominium wood moulding supply.

A family-owned enterprise spanning five generations, Aurora Custom Mouldings has maintained its fine reputation of providing Canadian and International customers with superior wood products. We stand behind our quality 100%"

Our Mission

Every individual in our company consistently strives to create products which will inspire our clients around the world a feeling of pride in the completed project for many years. Our dedicated personalized service with available onsite representatives for any job; we prefer the hands on approach offering our customers unequalled service and support throughout any job.

Some past projects we have supplied with our superior quality wood mouldings;

Ritz Carlton Toronto
Osgoode Hall
First Canadian Place
Disney Land Board Walk Hotel
World Trade Center
Bank of America Merrill Lynch
Magna World Headquarter
Magna Golf Course
Skydome
Windsor Hotel and Casino
University of Michigan
Michigan Hall of Justice
East Side Mario's

LCBO
Hunter Douglas Blinds

These are just a few high profile projects our company has participated on, we have the equipment, staff and experience to complete any jobs requiring the use of wood mouldings. Our current manufacturing capacity and specialized equipment allow us to produce specialty wood mouldings no other companies in North America can reproduce. Our dedicated staff allow us in house replication of any existing moulding along with design and creation of anything a designer may dream, all with our ability to create in house this custom profile in days, not weeks or months!

We have a very sophisticated plant with all state of the art equipment ready to meet any needs necessary we also do not have any minimum or maximum capacity in our shop. We have more equipment than our competitors on hand ready to produce. No job is too big or too small for us to complete, we are a multimillion dollar facility capable of even the world's largest projects. All of our manufacturing uses kiln dried woods of the highest quality unless otherwise specified, we strive to deliver the highest quality product on the market and stand behind it with 100% commitment to our product and our quality. Should the need arise though even though we strive towards using natural wood solids we can also supply any MDF job that should be required.

Aurora Custom Mouldings is committed to any jobs big or small, we have formed limited partnerships with many of our customers over the years to complete even the largest tasks, should the need arise for custom millwork, finishing, installation or bonding large jobs we can do it all.

We have recently been recognized by the ecology center of Canada as a Green company. Aurora Custom Mouldings is a leading example of utilizing all aspects of the wood fiber received and we are committed to our environment. Clients utilizing Aurora Custom Mouldings' products are committing to make a difference environmentally. The wood products manufactured through our plant are acknowledged as green. Rest assured you have done your part when choosing our company for your project.

In conclusion, Aurora Custom Mouldings is your moulding partner with a very reliable service in high quality wood mouldings with competitive price.
